

The ABC's of Peranakan Museum

A

Be **ATTENTIVE** to your teachers or guides.

They are here to help you learn about our museum and collections.

So don't talk when they are and keep the volume down.

B

BEHAVE yourselves.

Respect our staff, guides and properties, our visitors and yourself.

C

Be **CAREFUL**.

Our galleries are a little bit dark because we have to preserve our artefacts against harmful light rays. We use fibre-optic lightings which are safer for our collections.

Never use flash photography or have any physical contact with any artefacts at all time.

D

DOs & DON'Ts.

Do make use of the interactives and touch stations that we have in the galleries. With care of course.

Don't eat, drink or consume any form of edible matters in the galleries. If you are hungry or thirsty, please make your way to the main lobby.

NOTE: Please brief the students before proceeding into our galleries.

IMPORTANT:

The staff reserves the right to ask any museum visitor to leave if their actions are deemed inappropriate. The museum is not liable for injuries to person/s and loss of or damage to property incurred in the course of any activity within the museum premises.
